Mrs. L. L. Rives, A.B.	Steward
William McHenry, A.B., M.A.	Superintendent of Buildings and Grounds

East Carolina Teachers College

Bulletin

SUMMER SCHOOL NUMBER

Volume 32

March, 1941

Number 1

SUMMER SESSIONS 1941

The Summer quarter at East Carolina Teachers College is an integral part of the academic year, and is the equivalent of any one of the other three quarters in respect to courses, their credit value and the quality of instruction given.

Beginning with the session of 1931 the summer quarter was divided into two equal terms. This arrangement is made for the convenience of a large number of students who find it inconvenient, if not impossible, to attend the full quarter, but who find it necessary or profitable to use a portion of the summer for further study.

Most classes meet five times a week in order to complete a three hour course during each term. Instruction periods are sixty minutes long, exclusive of the change period between classes. Students will be permitted to carry a maximum of three full courses each term for a total credit of nine quarter hours per term (six semester hours).

A tentative list of the courses to be offered during the summer sessions is found in this bulletin, but any course listed in the general catalogue will be offered during either term of summer school provided there is sufficient demand for it. If there is not sufficient demand for any course listed in this bulletin it will be dropped and another course will be offered in its stead.

Practice teaching in the elementary grades will be offered during the first term only.

All departments of the college will be in operation during the summer sessions. All courses offered carry degree credit.

LIBRARY SERVICE

LIBRARY READING ROOM

ENTRANCE REQUIREMENTS

The requirements for admission are the same for the summer session as for the regular year. For complete statements concerning them the regular catalog should be consulted.

High school graduates who expect to enter college here for the first time must submit their high school credits before registering; preferably, a month before the opening of the summer session.

Graduates of accredited high schools are admitted without examination if their credentials include a minimum of sixteen units of acceptable studies.

Applicants for admission to the summer session who have attended another college must submit to the Registrar an official transcript of their college work. It should be submitted at least a month in advance of the opening of the summer session. To be eligible for admission such students must have honorable dismissal from the last college attended, the scholarship as indicated by grades must be better than ten points under an average grade. All transcripts submitted become the property of East Carolina Teachers College and will not be released.

Former students of East Carolina Teachers College who desire to continue their work toward a degree find little difficulty in adjusting the work done on an earlier curriculum to the requirements of present curricula. Credits earned elsewhere in standard colleges will be accepted, when properly certified provided such credits fit in with the curriculum selected by the student in East Carolina Teachers College.

The Registrar should be supplied with an official transcript of any recent extension or residence work done in other colleges for which the student desires credit, at least three months in advance of the date he expects to graduate here.

It is expected that each student will keep for his own information and guidance an orderly check on the courses completed, and those yet to be completed on his curriculum as it is outlined in the catalog.

FEES AND EXPENSES

College fees during the summer sessions are the same as for other quarters, viz:

	1st Term	2nd Term	Total
Dormitory student -----	\$46.75	\$46.75	\$93.50
Day student -----	16.75	16.75	33.50
Late registration fee -----	1.00	1.00	2.00
Out-of-state fee -----	10.00	10.00	20.00
Private music lessons (per quarter) -----			7.00
Laboratory fees in certain subjects -----			2.00
Changes in schedule (per subject) -----			.25
“Auditor” in one or more courses -----	6.00	6.00	12.00
Infirmary fee* (per quarter) --	.50	.50	1.00
Observation in Training School (Not exceeding two weeks)	5.00	(or \$1.00 per day)	

The tuition fee of \$10.00 per term is included in the charges given above.

All fees are due at the time of registration.

Special students, i.e. day students who schedule not more than three credit hours per term, will pay a fee of \$2.00 per credit hour scheduled.

Students who, for any reason, withdraw from the college before the end of any quarter will have a proportionate part of the amount paid for board refunded. Under no circumstances will other fees be refunded. Refund will be from the date of official withdrawal from college.

HOUSING FACILITIES

The college has abundant space in its dormitories and dining halls for all who may attend the summer sessions, and private homes are available for those who desire to live off the campus.

*Charged day students not living in own home; gives infirmary service.

Women students not living in their own homes are required to live in the college dormitories unless they have written permission from the Registrar to live in an approved private home. The applications of minors must be signed by parents before they will be considered.

Students staying in private homes may secure board in the college dining room at the rate of \$45.00 per quarter or \$22.50 for each term of summer school. Room and board may be found in private homes convenient to the college at reasonable rates.

Students not living in the college dormitories should be sure to give their local address on registration forms, so they may be located quickly in case someone desires to get in touch with them.

Cotten Hall will be reserved for the housing accommodation of married couples who attend the summer sessions. These accommodations will be available only when both husband and wife are registered for summer school work here. Children may not live in the college dormitories nor take meals in the college dining halls.

Rooms in the men's dormitory will be available during the summer sessions for men students.

CERTIFICATES AND DEGREES

The kind of certificate held determines the ranking, salary, and position of the teacher, as a rule. Teachers are typically ranked according to the length of their professional training. There is no room in the profession for the poorly trained teacher.

The demand is growing for elementary school teachers who hold degrees on four years of college work. Superintendents and other employing officials in the public schools are demanding the class A certificate, and it is becoming more and more difficult for those holding the class B certificate to secure a teaching position.

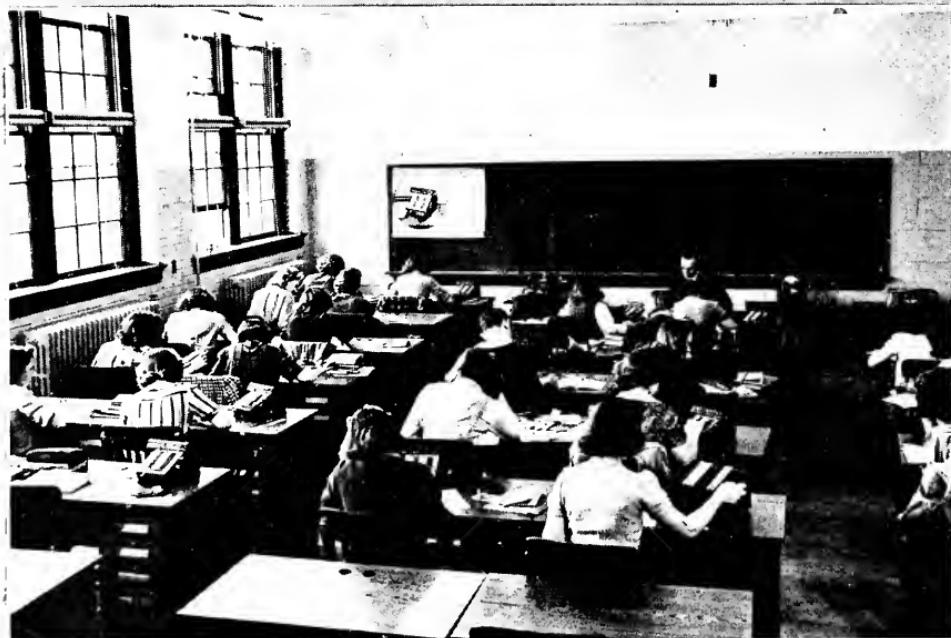

PRINCIPAL'S CERTIFICATE

There is a growing demand for teachers who hold a principal's certificate, hence special attention is called to the offering of courses in the department of Administra-

COMMERCE

FUNCTIONAL SHORTHAND

ADVANCED ACCOUNTING

tion and Supervision. These courses are provided for the benefit of those students in the summer sessions who desire to qualify for the supervisor's certificate or for the elementary and high school principal's certificate.

PRIMARY AND GRAMMAR CLASS A CERTIFICATES

The State Department of Certification now requires the satisfactory completion of the requirements for a degree from a standard college and the specific certificate requirements as qualifications for the class A certificate. This means that the department does not issue the class A certificate merely on the earning of a minimum of 120 semester hours, including specific subject requirements for the certificate, as it has done in recent years.

Teachers who are expecting changes in their certificates in 1941 as a result of their summer school work should wait four weeks after the close of the term before making any inquiry of the State Department of Public Instruction at Raleigh.

When a certificate is to be raised to a higher grade it is not necessary to send the old certificate to the State Department of Certification.

Reports of the summer school work go promptly from the college to the State Department of Public Instruction on a report card the student leaves with the college. Do not send the Department your personal report of summer school work.

LIBRARY SCIENCE

Attention is called to the offerings in Library Science during the summer session. Three courses will be offered during the first session, and if there is sufficient demand, three courses will be offered the second session. This work will enable teachers to qualify for librarians in the smaller high schools of North Carolina.

Teacher-librarians, that is, teachers who give a portion of their time to library work, shall have earned a degree in a standard four year college, met the professional requirements for a class "A" teachers certificate, and earned at least twelve semester hours in library science. This

work shall include administration, reference, children's and adolescent literature.

PHYSICAL EDUCATION IN ELEMENTARY SCHOOL

As of July 1, 1942, teachers in the elementary school will be required to present as a part of their training for a certificate, the following work in physical education:

Principles of health and physical education _____ 2 s. h.
Practices and procedures in physical education
for elementary schools _____ 2 s. h.

Part time teachers of physical and health education and coaches of athletic teams will be required to have credit for fifteen semester hours in physical education covering specific fields of work designated by the department of public instruction.

PHYSICAL EDUCATION IN HIGH SCHOOL

Part time teachers of health and physical education in the junior and senior high schools will be required to have credit for thirty semester hours of credit in physical education as follows:

1. Human anatomy and physiology _____ 6 s. h.
2. Principles, organization, administration, supervision of physical education and health education _____ 3-4 s. h.
3. Physical education skills and applied techniques, _____ 12 s. h.
4. Individual corrective physical education _____ 2-3 s. h.
5. Health education
 - (a) materials and methods _____ 2-3 s. h.
 - (b) hygiene, sanitation, etc. _____ 3-4 s. h.

AUDITORS

With the permission of the instructor any class offered in the summer quarter is open to auditors; that is, to persons who desire to attend classes without receiving any credit for the courses taken. The registration fee for this privilege is \$6.00 for each term of six weeks, or fraction thereof. Auditors may register for any three courses at

any time during a term. They will not be permitted to take examinations in the courses audited.

ABSENCES

Absences are not excused at any time or for any reason. Absences are counted from the first class meeting, hence, late registration constitutes an absence from class. A student will not be allowed credit on a course in which he is charged with more than six class absences. Since absences are not excused the student is held accountable for the work covered in each class meeting.

CLASSIFICATION

Students working for a degree in East Carolina Teachers College are classified according to the number of credit hours earned and on record toward the completion of a curriculum in this college. Students having on record fewer than 43 quarter hours of credit are classified as freshmen; those with 43-91 quarter hours are classified as sophomores, those with 92-138 quarter hours are classified as juniors, and those with 139 quarter hours or more are classified as seniors.

Students taking a full schedule of studies, normally 12 to 18 quarter hours, for purposes other than graduation in this college are listed as "unclassified". Those taking a limited schedule of studies (not more than six quarter hours) are classified as "special" students.

STUDY PROGRAM AND CREDITS

The usual regulations concerning a student's program of studies will apply during the summer sessions, but the regulations are interpreted for two six weeks sessions instead of for an unbroken quarter.

A student may schedule a maximum of nine quarter hours per term; with special permission from the committee on classification he may schedule ten quarter hours, but under no circumstances may a student schedule more than ten quarter hours per term.

To convert quarter hour credits into equivalent semester hour credits multiply by two-thirds, eg. 9 (quarter hours) multiplied by $\frac{2}{3}$ equals 6 (semester hours).

To convert semester hour credits into equivalent quarter hour credits, multiply by 1.5 or $\frac{3}{2}$, eg. 12 (semester hours) multiplied by $1\frac{1}{2}$ equals 18 (quarter hours).

Teachers' certificates may be renewed in a six weeks term; credits may be earned toward a higher certificate, and toward graduation.

No credit will be given for a course in which a student misses more than six class recitations. Students may register not later than one week after the opening of either summer session.

Students desiring transcripts checked or college credits evaluated before making up their summer term schedules should submit transcripts and request the check at least one month before the session opens.

Each student should register if possible on the first day of the term. Late registration is a serious hindrance to the best work and there is a fee of \$1.00 charged late entrants.

EXAMINATIONS

Final examinations in each term will be held in each class on the hour of the last class meeting. A condition (Grade of "C") incurred in the summer quarter must be removed, in the manner directed by the instructor of the course, not later than the close of the next quarter of the student's re-enrollment in the college; if not thus removed it becomes automatically a failure.

DEMONSTRATION CLASSES

Special demonstration classes are provided for observation in the training school. Experienced teachers may enroll for the observation alone, which carries no college credit, for a nominal fee of \$1.00 per day or \$5.00 for a period not exceeding two weeks. The number of persons that can be admitted for observation is limited. Persons desiring to observe in the Training School must register, secure a permit from the Registrar of the college and re-

PHYSICAL EDUCATION

ARCHERY

TOUCH FOOTBALL

ceive directions concerning the time and manner of observations.

GRADUATE INSTRUCTION

Demands are being made upon superintendents, principals, and high school teachers for scholastic attainment represented by work beyond the Bachelor's Degree. To help meet these demands, work will be offered in Administration and Supervision, Secondary Education, English, History, and Social Science. Other courses may be offered if the demand is sufficient.

Special attention is called to the courses offered for principals. One of the outstanding city superintendents of the state will be in charge of some of these courses.

INDUSTRIAL OR MANUAL ARTS

Experienced teachers will be interested in the courses offered in manual arts. The courses in wood-work are especially valuable to teachers in guiding pupils in projects involving elementary construction and the use of simple tools.

PLACEMENT BUREAU

The facilities of the College Placement Bureau are available to all students and graduates of the college without charge to them. If they register with the Bureau and furnish the personal data needed, the Bureau endeavors to place them in teaching positions for which they are best fitted.

SELF-HELP

There is a limited amount of self-help work available to students who must earn a portion of their college expenses while attending the summer sessions. These self-help assignments are made about May 10, and students desiring such work should make application prior to that date on a form provided by the college. Only students with better than average scholarship are considered for these assignments. N. Y. A. funds are not available

during the summer sessions, and at present there is no assurance that they will be available next year.

RECREATION AND ENTERTAINMENT

The summer school at East Carolina Teachers College offers abundant opportunities for wholesome recreation to its students. Four tennis courts, a municipal swimming pool adjacent to the campus, a baseball field, a good volleyball court, the weekly motion picture show in the college auditorium, and the regular social hour each evening in the Robert H. Wright Building, are some of the attractions available.

A series of attractive entertainments secured from a national lyceum bureau will be offered during each term of the summer school. In addition there will be the usual picnics, barbecue lunches, watermelon cuttings, etc., which are provided for summer school students.

FACULTY

Attention is called especially to the strength of the faculty retained for the summer sessions. Students who attend the summer sessions of East Carolina Teachers College are assured of a high standard of instruction and they are assured of all the benefits that ordinarily accrue to one who attends a thoroughly modern college of high standing.

GRADUATION

Graduation exercises are held twice each year, viz., at the close of the spring quarter in June and at the close of the summer quarter in August.

Students contemplating graduation in August should acquaint themselves with the graduation requirements as found in the general catalog.

Formal application must be made not later than registration day of the quarter in which graduation is expected. The graduation fee of \$5.00 is due when the application for graduation is made.
